Recently the Oglala Sioux Tribal Council addressed the issue of encouraging the Oglala Sioux Tribally Enrolled Membership to get vaccinated in an effort to curb the spread of Covid-19.

The Oglala Sioux Tribe recently reviewed a plan for a website "[OSTVI.COM](http://OSTVI.COM)" that would assist in the Vaccine Incentive Project. Currently, this website is in its planning stages and isn't sanctioned by the Oglala Sioux Tribal Council. The Vaccine Incentive Plan, in its infancy, still needs the accompanying policies and procedures approved before the official launch of this Vaccine Incentive project and website. The Domain name "[OSTVI.COM](http://OSTVI.COM)" is currently being reviewed and addressed with the Oglala Sioux Tribal Council and is not an active site. The [OSTVI.COM](http://OSTVI.COM) website is currently inactive due to this process. The Domain was shared with the OST Tribal Council Representatives for review only but eventually was shared with members of the general public.

Since April 1st, 2022, there have been 245 applications filed on the [OSTVI.COM](http://OSTVI.COM) inactive and unsanctioned website. To any individual who may have filed their information on the [OSTVI.COM](http://OSTVI.COM) website, your information was permanently deleted, and no information was saved. If in the near future the [OISTVI.COM](http://OISTVI.COM) website is approved and sanctioned by the Oglala Sioux Tribal Council those who filed their information on the [OSTVI.COM](http://OSTVI.COM) will have need re-file again.
